## Our classroom

We are the citizens who love Higashi- Murayama.

We have hope.

We are students who learn English conversation in the classroom now.

Our hope grows big in learning in this classroom gradually.

We learn linguistics, and fly around in the world.

To meet people for who speak different languages!

There are various cultures around the world. They are different culture.

The people of the world have love and friendship.

Then, we learn much, and make many friends.

For example, we connected with Independence a sister city in America.

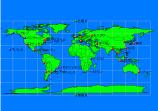

Then, it has been our sister city for thirty years.

There is a lot of friendship, and a bond has been made with the sister city.

Well, let's learn! At English conversation lecture of the Higashi-Murayama City international friendship society auspices!

Let's satisfy a dream at the wonderful teacher's lecture!

It is Mr. Gordon and Ms. Vanessa that satisfies our dream.
